TECHNICAL SKILLS

Languages

C • C++ • Java • **Python** (studying / active)

Databases

• MySQL • JDBC

Web

HTML • CSS • JavaScript (basic)

Tools & Technologies

VS Code • Git (basic) • Maven (basic) • Apache Tomcat • Linux

CERTIFICATIONS

Certificate of Attendance

Fundamentals and Applications in Artificial Intelligence
12 hours • 27/01/2026 – 29/01/2026
Issued by: The British University in Egypt (BUE) – School of Continuing Education (SCE)

INTERESTS

Backend Development • Software Engineering • Cybersecurity • AI

STRENGTHS

Problem Solving
Object-Oriented Programming (OOP)
Analytical Thinking
Debugging Skills
Fast Learner
Self-Motivated

PROFESSIONAL SUMMARY

Motivated Computer Science student at AAST with strong foundations in C, C++, Java and active learning in Python. Founder and developer of EasyFixers, a service-based platform connecting users with skilled professionals. Strong in SQL and database-focused problem solving, with growing backend experience using JDBC, MySQL and Apache Tomcat. Interested in building scalable, well-structured software and continuously improving through projects and coursework.

EDUCATION

Arab Academy for Science, Technology & Maritime Transport (AAST)

B.Sc. in Computer Science • **Expected 2028**

PROJECT EXPERIENCE

EasyFixers

- Built a service marketplace concept that connects users with electricians, handymen, painters and other professionals.
- Practiced backend and database integration concepts (JDBC/MySQL) and strengthened debugging/system thinking.
- Designed clean UI pages and branding assets; focused on clarity, accessibility and a modern look.
- Password Manager : Python-based password manager that stores and manages user credentials securely.
- Snake Game: Classic snake game built in Python demonstrating logic building and game loop development.
